Prices For 1928-29
All Tenure prices are canceled, Not only those for the current season, but for the next 5 years. A few good standard root sizes remain.
Order early as some of the rare varieties are very scarce. Orders will be filled in rotation as received. Do not remit more than the Established Prices as it is not possible for us to get the extra amount to cover through sales, although our prices are based on the material we get at that rate. We only employ experienced men in filling orders. Last fall we received an importation of Peony roots from Rouen. In early June we planted the first and last of this stock in quiet after the growing season the fall during which they had been in the ground. They are now covered with straw so the ground would not freeze. At present time 95% of our Peonies are up and looking as well as those which were put in earlier. Be very careful in writing your name and address plain, Send remittances with order, or satisfactory reference.

We will not be liable for more than the purchase price. Every purchase from us is made on the understanding that no sale by us carries a warranty of quality, express or implied, and for any error we shall not be held responsible.
